

PIPEWORK SUPPLIES

Offering a Wide Range
of Quality Controlled
Pipework Components

Pipework Supplies Limited

Formed in 2024, with over 20 years of experience in the industry, Pipework Supplies Limited offer an extensive range of Quality Controlled Mechanical products and solutions for the Petrochemical, Oil and gas, Pharmaceutical, power, and many more.

From Pipework, Flanges and Fittings to Fastenings, Studbolts and Gaskets we ensure you get the correct product on schedule with Material certification.

Why Use Us?

With the Experience and capability to supply many different products from market leading manufacturers, in a multitude of materials, Pipework Supplies have an extremely broad supply chain to help with the most difficult of challenges to the smallest of projects.

Whether you require 1 or 2 single items immediately or the complete mechanical solution on a dedicated delivery schedule, Pipework supplies are happy to assist.

As a service driven business, with the client at the forefront of our operations, we offer a unique bag a tag service to alleviate time spent material handling. Pipework Supplies will pack and label as per the clients isometric drawings. This will ensure a smooth transition from our business to yours.

Stock + Materials

We hold a broad range of Pipework products at our branch in Grimsby, these can be delivered to site locally or nationwide. Goods can also be collected from our premises. We also have the ability to obtain difficult to source and urgent materials. Our aim is to ensure the client receives exactly what is required at the right time to the right place.

See across for more information on some of the products within our supply.
